  ✧ This Quick Setup Guide x 1
  ✧ Warranty Card x 1

## 1. Install Bluetooth software for windows

1. Insert the Installation Software CD into CD-ROM drive. If the Auto-Run function of CD-ROM is disabled, you can utilize the Windows Explorer to browse CD content and run **Setup.exe** manually.

  If the Auto-Run function of CD-ROM is enabled (in Windows, the default setting of
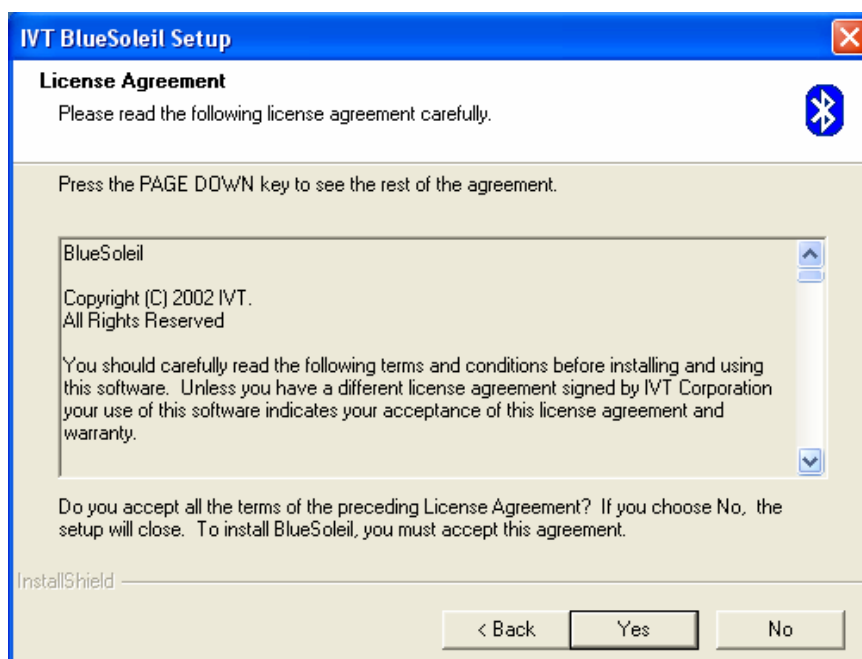

this function is usually enabled), then a CD menu will appear automatically.

2. Select the Language you want to installation from the combo box, and then press the "OK" button to continue.

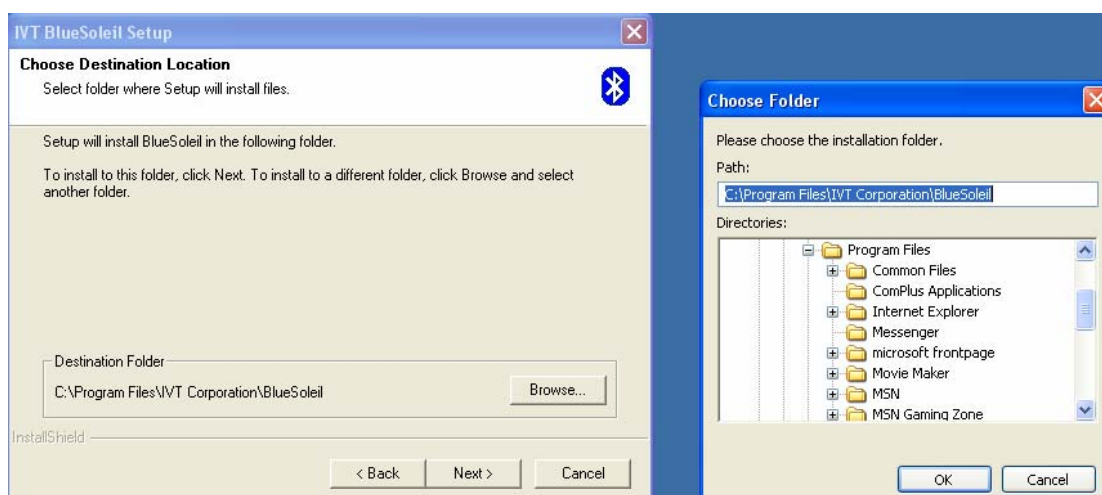

3. Please click *Next* button several times to continue the software installation. In the *License Agreement* window, please read license agreement carefully, then click "Yes" button to continue.
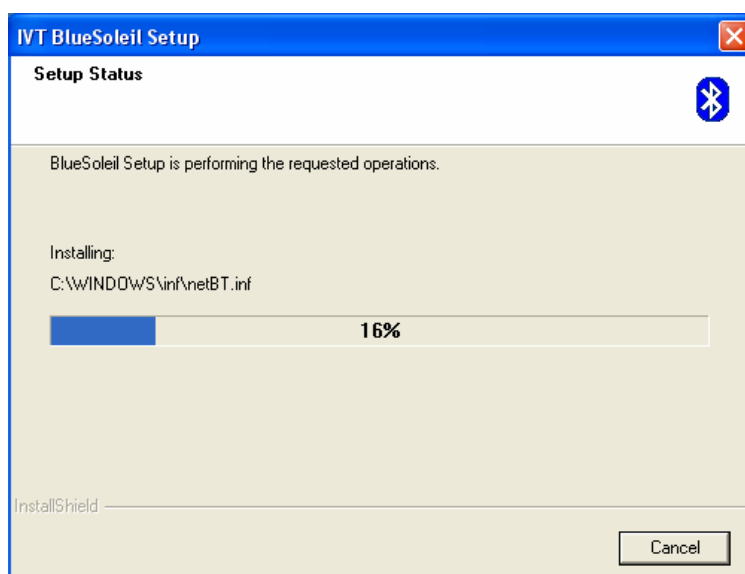

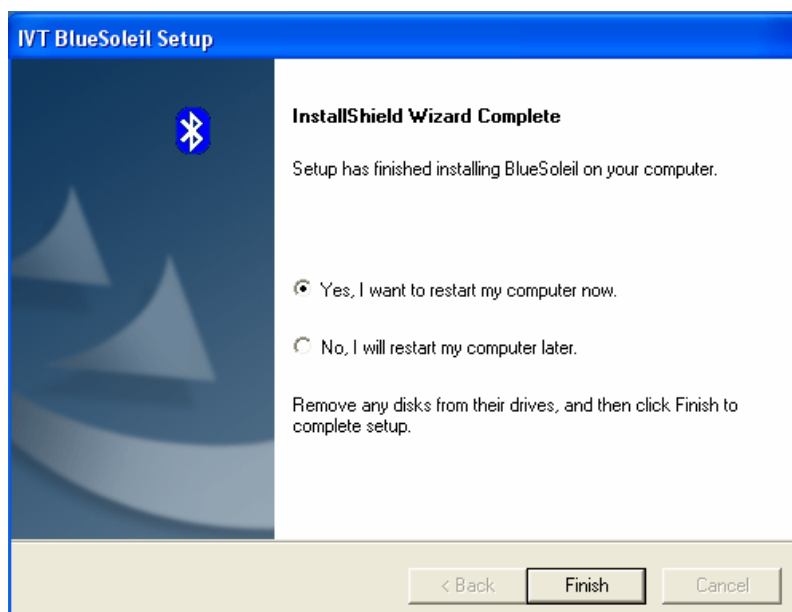

4. Indicate the location of where you want Bluetooth Software to be stored; if you do not change the default settings, it will be stored under **C:\Program Files\IVT Corporation\IVT BlueSoleil** (Recommended). Click on *Next* button to continue. Or you can select your prefers location to install.

5. The Install Shield Wizard will begin to install the software and copy files to your hard disk. After copy all the files, the installation will try to install virtual Bluetooth device in your system. It may take a few minutes, please wait it finishes the installation.
6. After finish installation, please select reboot your system to finish the installation.
Or you can select to reboot later.

7. There are two new Bluetooth icons appear on the desktop and the windows task bar

respectively when logged in Windows operating system. For more information on the BlueSoleil, please refer to Chapter 2.

8. Now you can plug-in / install your USB Bluetooth Dongle into your computer.

9. The Windows will show a prompt "Find new hardware – USB Device" in the system tray Bar. Please wait its finish the installation. When the Bluetooth Icon becomes Blue, then the hardware is installed and ready to use.

10. Please remove the Software CD after the installation is complete.

2. Start the Bluetooth Device

The Bluetooth Dongle need to plug into the USB port of your computer, and Start the Bluetooth Dongle service for ready to service.

1. If you didn't plug the Bluetooth Dongle, the Start tray will show the Bluetooth is not available logo.

2. After you plug the Bluetooth USB Dongle, the system tray Icon will become available.

3. Right Click the Bluetooth service tray Icon, press the *"Display"*.

4. Give this Bluetooth service computer a name and computer type, let the other Bluetooth identify.
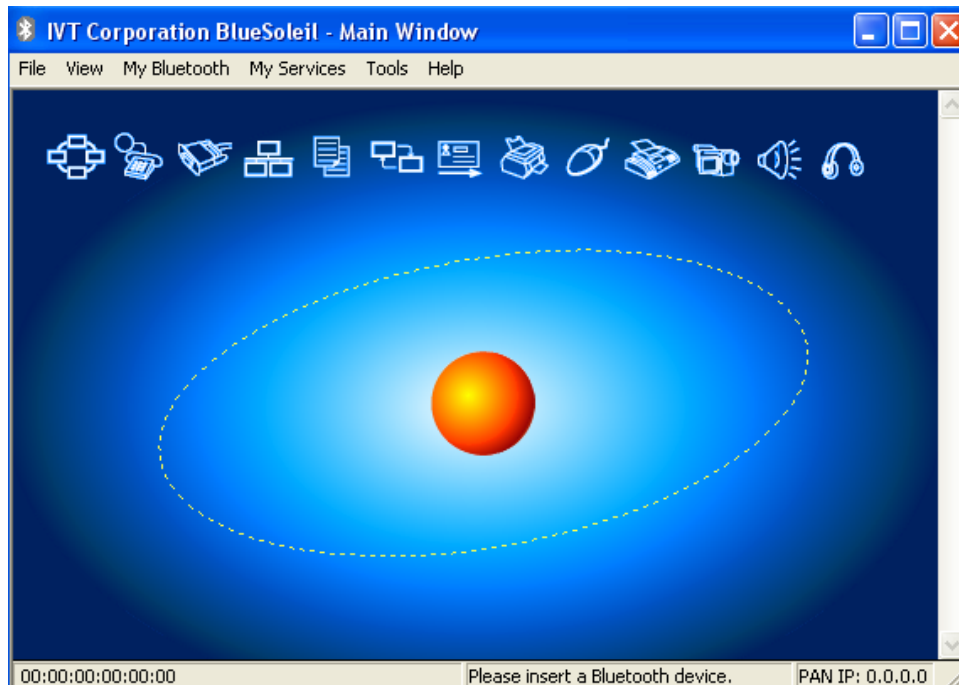

3. Stop the Bluetooth Device

Remove the Bluetooth Dongle from the USB port. The tray bar icon will show the BlueSoleil is not available.

Figure 1-26: The Bluetooth Device is not available.

4. Start BlueTooth

1. Insert the USB dongle to your computer.
2. Start BlueSoleil.
3. The plug in and pull out of the USB dongle can be detected by BlueSoleil. You can start BlueSoleil first and then plug in a USB dongle.

5 Establish Bluetooth Connection

A connection is normally initiated from the client.
● On the server side, start the service.
● On the client side, initiate the connection.

Start Service on Server

If BlueSoleil provides service, please start the service:
1. Change to Service Window.
2. Right-click the service icon, select Start Service on the pop-up menu.
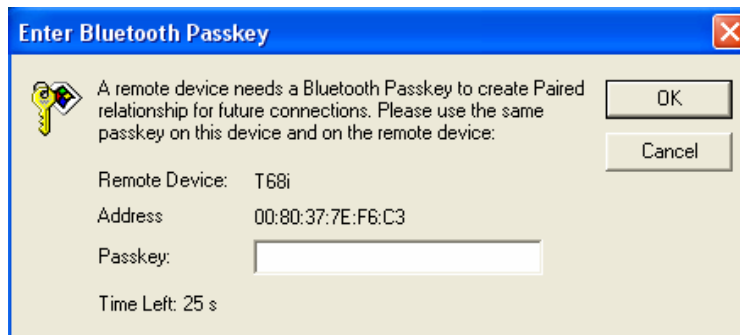

Initiate Connection on Client

In Main Window:
1. Single click my device, the center ball, to search the Bluetooth devices in range.
2. Search the selected Bluetooth device service by double-clicking the device icon. Service button on the top of the BlueSoleil Main Window will be highlighted if the service is supported by the device. Enter the same Bluetooth passkey on both devices if necessary to pair the two devices.
3. Connect.

Single-click the highlighted service button to establish the connection

A. If the other device needs pair, the Bluetooth Icon in the system tray will show a warning massage that the Bluetooth connection need input pair numbers.

B. Input **the same pair number** as you input in the other Bluetooth device. Then click ok to finish the Bluetooth connection pair procedure.
